## Superstitions Eradication Campaign

In NSS Special winter camp lecture was organised on topic like "AndhashraddhaNirmulan" Principal Dr.S.V.Patil delivered lecture on this topic in his lecture he told that the Indian Society as a whole is beset with innumerable slovenly and unscientific concepts like-fatalism, fate or luck, the cycle of birth and death, Karmasiddhanta (present suffering or good fortune is the fruit of deeds in the previous births), astrology, destiny, miracles, concept of being auspicious or inauspicious, vows, observances and what not. As a result, for all the advances that science is making, science will still be perceived only as a means of getting good marks to secure a job or enter some profession and earn a comfortable livelihood, as long as, the study of science does not inculcate scientific outlook and scientific method of thinking. On this occasion, Principal Dr.S.V.Patil, Vice Principal R.H.
