Response:

The **college constantly updates IT facilities** through a well-established mechanism. The requirement of ICT for students, staff, and other users is assessed from time to time and necessary arrangements for IT Infrastructure and provisions in budget for augmentation of necessary physical facilities are made. Maintenance of hardware and ICT infrastructure is carried by a full-time employed IT consultant.

Annual maintenance of IT infrastructure is done by dealers provided through parent institution. All departments in the college are provided with Internet, desktops, laptops, printers, scanners, LCD projectors. Some departments are provided Interactive boards. New computers are added as per the needs. The college provides high speed internet connectivity of **300 MBPS (more than 100 MBPS Distributive) bandwidth** for effective running of various software's and programmes. To support this infrastructure, we have installed **Wi-Fi facilities across the campus using eight D-Link devices**, covering the entire premises. **Free internet connectivity** is available to the stakeholders with secure login ID and passwords in entire campus. There are **05 computer laboratories** in the college at Department of Physics, Chemistry, Statistics, Commerce and IT etc.

The college has **05 laptops and 122 desktops** are available for students and teachers for academic and learning purpose. There are **14 LCD projectors, 01 smart board, 01 Interactive Panel with Ultra HD display, 03 Epson all in one colour printer**, **04 scanners, 47 printers, 2 DSLR cameras, 04 web cameras and 2 photocopier machines** provided in office and support service centres for administrative, educational purpose**.**

The college has established a comprehensive technology infrastructure, featuring a **high-speed BSNL Broadband line with LAN connection**, providing seamless internet access to all departments, labs, and administrative offices. **Regular upgrades** ensure our computer facilities stay current with technological advancements, syllabi changes, and emerging technologies. We prioritize **digital security with Quick Heal antivirus software, genuine Windows operating systems, and licensed copies, protecting our systems from malware and online threats.** Additional software installations, including **Tally Prime, Shree lip, SPSS, and ERP college administrator software**, support students' academic pursuits. **Hardware upgrades**, such as SSDs, RAM, and laptops and Modems enhance operational efficiency, while **active firewall protection** and Wi-Fi facilities extend to various departments. With **more than**

100 mbps internet bandwidth speed, our students and staff can explore, learn, and innovate in a technology-rich environment, supported by robust digital security measures, authentic software, and regular upgrades.

The college has invested in technology to enhance its operations and facilitate online collaboration. It has purchased **'E-campus' software**, a comprehensive solution for campus management, student information, and administrative work. Additionally, the college has a subscription to **'Google Meet (G-suite)' software**, which enables it to conduct online meetings, seminars, webinars, and conferences with ease. These tools streamline administrative tasks and facilitate seamless communication and collaboration among students, faculty, and staff.

Our institution, under the umbrella of Maratha Vidya Prasarak Samaj Sanstha, utilizes the **IT Soft HRMS (e-Campus) software** to streamline and manage various administrative tasks. This software automates and oversees office operations, admission processes, salary disbursements, and exams, while the **Auto Lib** Software manages the library. Additionally, financial accounts are maintained and managed through **Tally Prime** Software. To ensure efficiency and security, the college regularly purchases and updates essential office automation packages, including MS Office, Tally, and antivirus software.
